

SPS-E020-81  
8 April 1981

MEMORANDUM FOR: Director of Data Processing  
FROM : [REDACTED]  
SUBJECT : Deputy Chief, Special Projects Staff/ODP  
Special Projects Staff Weekly Status Report for Week Ending 7 April 1981

1. SAFE

The Preliminary Detailed Design Review (PDR) which began on 23 March was completed on 1 April. Held at the [REDACTED]

the Review was designed to allow the Government to determine [REDACTED] progress in designing the subsystems which will comprise the total SAFE System. As the Government's first look at the design effort at this level of detail, PDR was a major milestone in the SAFE Project. The results of the review, including some of the documentation delivered by [REDACTED] in preparation for the review, are still being assessed by the CSPO. A report on the PDR will be written by the CSPO when this assessment is complete.

2. ADSTAR

1. Design Problem Reports on Section 3, Camera Workstation, were delivered to [REDACTED] on 3 April.

2. A review of user and librarian retrieval operation was held with OCR representatives on 1 April. The requirements were then transmitted orally to [REDACTED] on 3 April.

3. A review of Section 4, Verification Workstation, was held with OCR representatives on 7 April.
